For sure, golfers of all levels will get their money's worth.

kulm golf st. moritz

The Kulm Golf - not just the first nine-hole golf course in the Alps but one of the continent's oldest - saw the light of day in 1891. It blends harmoniously into the natural Alpine landscape and, in accordance with a modern golfer's requirements, makes a nine-hole game an unforgettable experience. Beginners love the course just as much as do advanced players and professionals.

very important **kids**

Dear diary,

Finally, holidays! Yesterday, we arrived at our hotel in Pontresina and our first surprise was waiting for us in the room: my brother and I received toys and sweets! We did not even have to share - it was awesome ☺!

The sun woke me up in my super cosy bed, this morning. The breakfast buffet was brilliant, too - it was shaped like a pirate ship! My brother then went on a **treasure hunt** in the Krönchen Kids' Club, but I decided I'd rather splash around in the pool. We even have our **own kids' pool** - here the grown-ups don't bother us at all.

The Laret Market was right in front of the hotel and there seemed to be a lot going on. My parents browsed through market stalls and ate a yummy skewer. In the meantime, the other kids and I jumped on the **bouncy castle** in the courtyard! It was totally crazy - it looked just like the hotel. Now I'm exhausted. Lucky for us, there is **free juice and ice cream** everywhere in the hotel.

Tonight, we will make **kids' mocktails** and then watch a movie together - with homemade rainbow popcorn. I can't wait! Maybe I'll tell my brother about it, too... Then again, he has his maxi programme and will go to the **Engadine Kids Sport Camps** tomorrow - even Mum and Dad are jealous.

sporty **kids**

What could be better than to let off steam in the pure Engadine nature? That is why Grand Hotel Kronenhof and its partners offer your children a sophisticated summer children's and teenagers' programme in addition to the hotel offer.

- **Kids' Sport Camps** - Children from 6-12 years of age can expect a large selection of exciting outdoor activities such as beach volleyball and trampolining from Monday to Friday from 10.00 to 16.00h, including lunch
- **Kids' Tennis** - no matter if beginner, intermediate or advanced - children over 4 years of age benefit from group courses at the Kulm tennis courts

new: **kids' yoga**

With our new Kids' Yoga programme, we are providing a way for children and teenagers to develop and strengthen their personality in a harmonious way.

Through simple, gentle exercises the children and teenagers experience an unprecedented feeling of body and space that helps them to develop a balanced approach.

Important values and awareness of themselves and others are playfully introduced, while hyperactivity can be reduced or improved.

the fabulous mountains of the engadine - **corvatsch & diavolezza**

Around the impressive mountains of the Bernina massif lie the funiculars of Corvatsch, Diavolezza and Lagalb, which together form the fairytale mountain scenery of the Upper Engadine and are part of the Kulm Hotel and Grand Hotel Kronenhof's partner group. In summer, they are known as a hiking paradise and spectacular tourist attraction. In winter, they offer first-class snow fun - whether on the slopes, freeriding or in the snowpark.

After a 12-minute cable car ride up to the mountain station on Diavolezza, the view of the imposing Bernina massif opens up and overlooks Lake Bianco. The Piz Bernina towers powerfully over the Morteratsch and Pers glaciers, embedded between Piz Palü and Piz Morteratsch. With the brilliant optics of Swarovski, the struggling mountaineers on the Biancogrät, the famous sky ladder, can be watched in comfort while enjoying a fine meal and a glass of wine.

The Via ferrata Piz Trovat I (simple variant) and II (difficult variant) lead prospective alpinists to the summit of the same name at 3,146 metres.

A climbing experience with far-reaching views. And should the weather not be playing along, you can discover the fabulous mountains in the virtual reality cinema on Diavolezza.

For even more altitude, guests should take the cable car up to Corvatsch. The highest mountain station in the Grisons, it is home to restaurant 3303 (named after its height), which offers a spectacular view of Piz Palü and its peers as well as the deep blue lakes of the Upper Engadine.

Anyone who would like to enhance their experience from just the visual to include even more sensations will find Furtschellas the place to be. Paths for every level of hiker and fluffy animals in the mini-petting zoo make the day go by in a flash.
